

Get your heads round the Government's repost to our criticism of their latest modifications to the Healthcare Bill
THEN
Read our rebuttal of these disingenuous political remarks

The first website gives the Government's answers to our criticism of their latest modifications to the Healthcare Bill.

At first sight one gets the impression that we have spent the last nine months barking up the wrong tree. Don't be deceived!

The second website gives the factual rebuttal of this gob-sh***.

It does mean that you need to jump between the two websites looking in turn at each argument and counter-argument. The full text is on the second website but the Government's answers in the text box are not so easy to read.

N.B. 25 myths are listed but there are only 15 rebuttals!

The first website is:

<http://conservativehome.blogs.com/files/the-nhs-bill.pdf>

You can get the counter-arguments to each "myth" by clicking on the second website and then the appropriate "myth" on the left hand border :

<https://sites.google.com/site/nhsfuture/Home>

The myths and counter-arguments start on page 4 of the first website

Here is an example.

Start by clicking on to the first website where you will get the following.

Myth 1 The NHS is being cut

"Fact"

We are increasing the NHS budget above inflation year-after-year – something which Labour opposes. But this does not mean that we can continue to put up with inefficient services, because of the rising demands on the NHS due to an ageing population and better technologies. That is why we are modernising the NHS – but any savings we make will be ploughed straight back into patient care.

Now, if you click on the second website you can get our rebuttal to myth 1 by clicking on to the appropriate myth on the left hand border.
